Examiner's Statement of Reasons for Allowance

Allowable Subject Matter

1. Claims 1-20 allowed.
2. The following is an examiner's statement of reasons for allowance: Regarding independent claims 1 and 12, the closest prior art of record, Washizu et al. (5,402,441) discloses a signal receiver for global positioning system wherein the signal determining unit determines whether a correlated output signal searched for by the signal search unit is produced by the direct wave of the GPS signal or not (col. 7, lines 8-15). However, Washizu et al. fails to explicitly disclose "a second data path for verifying the incoming CDMA [GPS] signal, located within the scanned signal window, against a lock signal".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
